

Release 3.0.0

CHANGES FOR PLAYERS

A lot of changes in this release relate to the Club Administration area of the system which will allow clubs to manage their member lists, congresses, communications, and access rights.

There is, however, one major change for players.

New Congress listing page

For some time now the main congress listing page in My ABF has been taking quite a long time to load. We have been aware of this and have now introduced a new version. It is not yet complete and there are obviously some changes from the existing one but this version is now operational and much quicker to load. Here is a guide to the main features currently on the page (there will be more to come):

The screenshot shows the 'Congresses' page with a purple header. Below the header is a navigation bar with filters for State (ALL) and Congress Type (ALL), and a search box. The main content is divided into two sections: November 2022 and December 2022. Each section contains a table of congresses with columns for Start Date, Congress, State, Congress Type, and Organiser. Red callout boxes are placed over various elements: 1 points to a row in the November table; 2 points to the 'View completed congresses' link; 3 points to the State and Congress Type filters; 4 points to the search box.

Start Date	Congress	State	Congress Type	Organiser
28 Nov 2022	Online Schaufelberger Teams 2022	NSW	★ State Championship	NSWBA

Start Date	Congress	State	Congress Type	Organiser
9 Dec 2022	Advanced and Intermediate Lessons	ACT	Lesson	ABF
10 Dec 2022	StepBridge December 2022 Online Swiss Butler Imp Pairs	SA	Club Congress	Stepbridge
11 Dec 2022	Christmas Teams 2022 - a Graded Members Only Event	QLD	Club Event	Northern Suburbs Bridge Club
11 Dec 2022	Toowoomba Swiss Teams Congress	QLD	Club Congress	Toowoomba Bridge Club

The main features of the new page are described below:

1 Main list The page lists much as it did before by month. Click anywhere along a row to open that Congress page.

2 Dates There is no longer a specific date range. The initial view shows all current and future congresses.

You can also view all past congresses – by clicking on the “View completed congresses” link just under the word Congresses in the header. The display will change to show Completed congresses for the last 6 months.

There are arrow keys to go back further in time if required:

- 3 Filters** You can filter the display by State (use the red filter at the top and select the State you want).
You can filter the display by Congress Type (use the magenta filter at the top and select the Congress Type you want).
You can no longer filter by Organiser. Instead use Search.

- 4 Search** Start keying in an organisation name or congress type and the screen will change to display only those congresses which match what you have typed. If you already have a filter selected, the search operates on the items matching that filter only.

Still to come

We will be adding the following

1. Ability to save your own settings (e.g. save filters that you want to use as your default view, or nominate congresses as favourites to always appear for you).
2. An indicator to see whether congresses are face to face, online (and which online platform), or a mix.
