THE CHALLENGE

Converting Size into Success

We have the talent and the numbers. Now it's time to build the high-performance support that turns that potential into world-class results.

**Australia
has one of
the largest
bridge
communities
in the world.**

THE OPPORTUNITY

**Convert Australia's strength into
stronger and more consistent
international results.**

**Really showcase what our country
can do.**

WHAT WE LEARNED

Through the International Performance Review, several themes emerged consistently:

- **Strong partnerships perform better internationally**
- **Preparation matters**
- **Experience against world-class opposition matters**
- **Support and leadership matter**
- **Long-term investment matters**

Success on the world stage doesn't happen by chance.

It is built through preparation, partnership, support and sustained commitment.

BETTER QUALIFICATION ALONE WILL NOT DELIVER BETTER RESULTS

To improve international performance we also need:

Better preparation

Stronger partnerships

Clearer expectations

Greater support

Stronger pathways

Performance-focused leadership

Stronger Teams. Stronger Community. Shared Success.

Their success raises the profile of our game, inspires future generations and creates something the entire bridge community can get behind.

WHY THIS MATTERS

WHY THIS MATTERS TO EVERY BRIDGE PLAYER

INSPIRATION

Stronger Australian teams.
More Australians standing on international podiums.
Stronger clubs and pathways.
A bridge community connected from club to country.
Something every Australian bridge player can be proud of.

SUCCESS → VISIBILITY → INTEREST → PARTICIPATION → GROWTH

When our representative teams succeed, it reflects the strength of our entire bridge community.

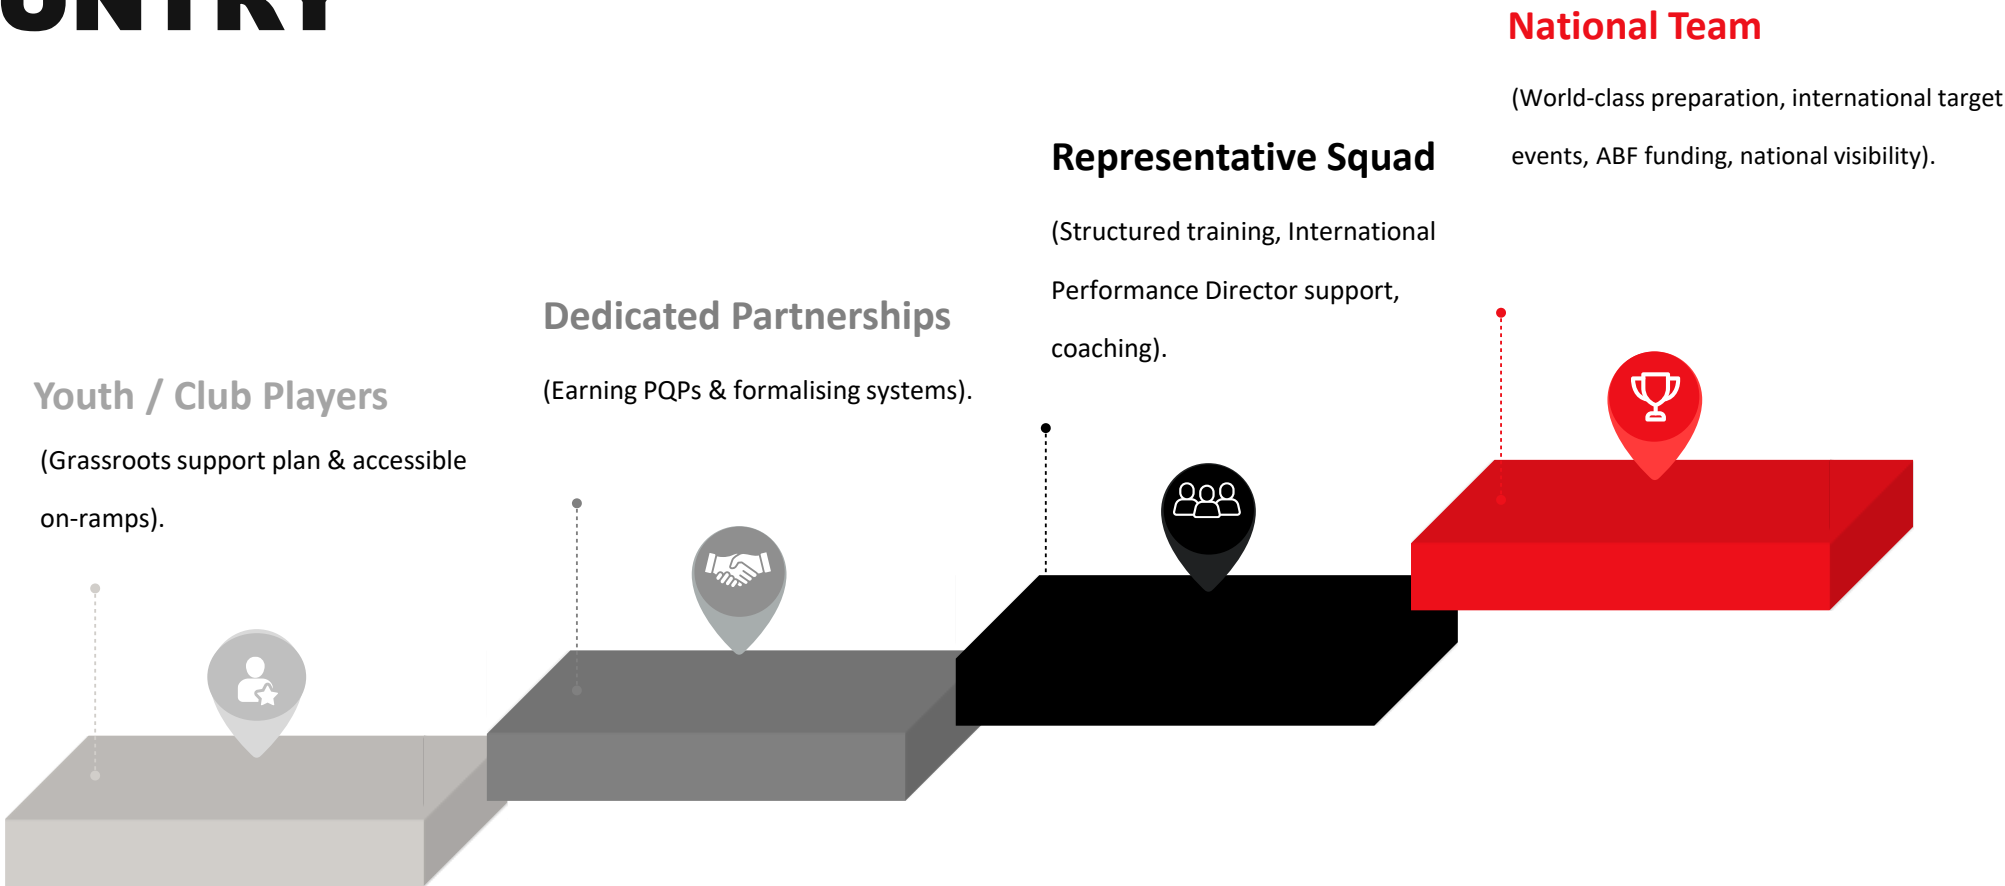

The ECOSYSTEM OF EXCELLENCE

Our ambition is bold: by 2035, Australia will have a representative system that consistently develops, prepares and supports players to compete with the world's best.
